Forecast for Sunday 14 Aug 2022

Weather: Mostly dry, hot and sunny. Becoming a little cloudier through the day, bringing just the outside chance of a few scattered showers by the afternoon. These may be heavy and thundery at times, with torrential downpours and hail possible, leading to adverse conditions if and where they occur.

Chance of cloud-free hill tops above 600m: 90%

Low cloud and visibility: Any cloud through the afternoon will be above all summits. Generally good visibility expected, although deteriorating rapidly to be poor to very poor in any heavy showers. Distant hills may appear hazy.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

UV remaining high to very high through Sunday, so suitable sun protection required. High temperatures and humidity, will bring a risk of heat exhaustion and dehydration. Also be prepared to change routes quickly, and descend from any exposed ridges should thunderstorms develop. Treacherous routes and localised flooding possible with any downpours

Recent rainfall: measured at Neuadd: altitude 353m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
02:00 on Sun 14 Aug 2022	0mm	0mm	0mm

Forecast for Monday 15 Aug 2022

Weather: A cloudier and cooler day than recent ones, but still rather warm and humid. Periods of rain are likely, along with heavy showers or thunderstorms. These most likely during the morning, where they could be accompanied by hail and torrential downpours. Some sunny spells still likely, best of which are expected to be during the afternoon. Further showers possible during the evening and overnight, with a chance of cloud thickening from the west.

Maximum wind: Northerly 5-10mph.

Chance of cloud-free hill tops 600m: 80%.

Low cloud and visibility: Cloud mostly above the summits, but lowering to obscure hills above 800m in any heavy showers. Otherwise good visibility expected, but locally poor to very poor at any heavy showers.

Temperature: **Valleys:** Plus 15 Celsius, rising to Plus 26 Celsius.
At 600m: Plus 15 Celsius, rising to Plus 18 Celsius.
Freezing level: Above summits.
